

MHCP

Heavy-Duty Cartridge Primary Cleaner

Massive, Rugged, Ready to Work

The MHCP Heavy-Duty Cartridge Primary Cleaner features segmented SuperShear™ blades that are engineered to stand up to the most abusive beltline conditions, such as wet, sticky fire clay, and maintain constant cleaning force. The massive blades have an extended wear life and also a quick-change blade cartridge feature. This is an extreme-duty cleaner that gets the job done – and with minimal maintenance.

Features and Benefits

- **Works with mechanical fasteners.** The shock-absorbing tensioners allow mechanical splices, skived or unskived, to pass without damage to the splice or the cleaner and with minimal cleaning disruption.
- **Retrofits to other cleaners.** The MHCP blade cartridge will fit on the poles of other cleaner manufacturers. Now you can experience the benefits of the SuperShear blades without having to install a completely new cleaner.
- **Complete cleaning system.** When teamed with the MHS HD Secondary Cleaner, it makes up a system that delivers maximum cleaning power for the most abusive conveyor applications.
- **Made for mining conveyors.** Made from heavy-duty, corrosion-resistant steel, the MHCP is available in sizes for belt widths from 600 to 2100mm. Additional sizes are available upon request.

MHCP

Heavy-Duty Cartridge Primary Cleaner

Maximum Belt Speed

6 M/sec

Temperature Rating

-35° C to 82° C

Minimum Pulley Diameter

500 mm

Blade Height

350 mm

CEMA Cleaner Rating

Class 5

Usable Blade Wear Length

200 mm

Blade Material

Urethane 90 durometer (proprietary blend for abrasion resistance and long wear)

Available for Belt Widths

600 to 2400 mm

Overall Pole Length

Cleaner size + 1450 mm

Maximum Conveyor Span

Cleaner size + 1050 mm

Horizontal Clearance Required

175 mm

Vertical Clearance Required

475 mm

Ordering Information

MHCP HD Cartridge Primary Cleaner with Spring Tensioner (PST)
