## A Safer Way to Lift a Belt

Eliminate pry bars and manual lifting to make a difficult and hazardous job easier and safer.

Flex-Lifter™ Belt Lifter safely lifts and holds tensioned conveyor belts.

 Highest safe lift rating available: 1810 kg (4000 lbs.)

Avoid problems and potential dangers associated with homemade devices like c-clamps, lumber, and chains.

Far-Pul® HD® Belt Clamps are specially designed to properly secure a belt and clamp it for safe belt conveyor maintenance.

 Securely grips belts up to 25 mm (1 inch) thick.

A Safer Way to Secure a Belt

CEBC1 O

A Safer Way to Cut a Belt

900 Series

Utility knives simply can't provide the same level of safety, speed, and accuracy when cutting belts.

Flexco Belt Cutters minimise the danger of accidental injury during the belt cutting process.

 Operators are protected from cutting edge of blades during operation.

Skiving a belt without the proper tools can lead to serious injuries.

FSK™ Belt Skiver safely removes top cover for installation of recessed splices.

 Blade is safely enclosed during skiving operations.
