

Electric Belt Cutter

Power Assisted Belt Cutting For Rubber Belts Up To 50 mm (2") Thick

Squared and cleanly cut belts at a cement plant are essential to long-lasting splices and belts that track on center. Available in both corded and cordless versions, the Electric Belt Cutter from Flexco quickly and easily cuts all types of belting from the softest of natural rubbers to the hardest constructed solid woven PVC and fabric plied belts. Complementing the existing range of Flexco belt cutters, the Electric Belt Cutter is safe and easy to use.

- Available in two sizes. The EBC1 and cordless CEBC1 allow for cuts up to 25 mm (1") thick on rubber belts and up to a maximum 630 kN/m (360 P.I.W.) on PVC belts. The EBC2 and cordless CEBC2 provide for a thicker cut up to 50 mm (2") on rubber belts and up to a maximum 2000 kN/m (1140 P.I.W.) on PVC belts.
- Designed for cutting all belt widths as well as for extended, longitudinal cuts.
- High speed, steel blade provides for a smooth, accurate cut and is protected by a spring loaded blade guard for enhanced worker safety.

Faster.

- Sealed ball bearings support the belt during cutting and allow the operator to feed the cutter into the belt with minimal effort
- Constructed of special high speed steel, the Electric Belt Cutter blade is dual angled for smooth, accurate cutting
- Side handle can be mounted on either side for left or right hand operation

Safer.

- Spring loaded blade guard protects operator from cutting edge of blade
- Top mounted eye bolt for attaching cutter to tool balancer
- Permanently sealed gearbox provides long lasting, maintenance free operation

Smarter.

Features and Benefits

Sealed ball bearings support the belt during cutting and provide for nearly friction free feeding of the cutter on the cutting surface.

High speed steel blade is dual angled for smooth, accurate cutting.

The self balancing rail guide system provides added stability during use to allow for a straight, accurate cut.

ELECTRIC BELT CUTTER

Electric Belt Cutter

The heavy-duty stainless steel housing construction of the Electric Belt Cutter is strong, durable, and corrosion free. The permanently sealed gearbox provides for long lasting, maintenance free operation. It can be easily adapted for either right or left hand operation.

The EBC1 or EBC2 Electric Belt Cutter comes with an attached hammer drill and power cord, handle, and instruction guide.

The cordless CEBC1 or CEBC2 includes an attached drill, two batteries, recharger, handle, and instruction guide.

The Electric Belt Cutter is packaged in a durable, protective carrying case.

CUTTING CAPACITY

Description	EBC1/CEBC1		EBC2/CEBC2	
	Metric	Imperial	Metric	Imperial
Rubber Belt	Up to 25 mm	Up to 1"	Up to 50 mm	Up to 2"
PVC Belt	Up to 630 EP	Up to 360 P.I.W.	Up to 2000 EP	Up to 1140 P.I.W.

Ordering Information

Description	Ordering Number	Item Code
Corded Model	EBC1	30001
	EBC2	30002
Cordless Model	CEBC1	30018
	CEBC2	30019
