

# EZP1 Rockline® Standard-Duty Precleaner

## Simple, Quick, Effective Belt Cleaning for Pulp and Paper Operations

The EZP1 Precleaner is not your average solid-blade belt cleaner that mounts on the head pulley. It features a unique single blade design that combines simple, do-it-yourself installation, quick maintenance, and effective cleaning with a price tag that you can afford. Install the EZP1 on belts carrying bark or chips where dust is widespread to facilitate the capture of usable material and avoid material piles that create fire hazards. Stainless Steel components and Chemical-Resistant, High-Temp, or Ultra-High Temp blade options are available for belts carrying chips to the digester and lime to the kiln.

**Faceted profile design** results in continuous blade edge "renewal" for improved cleaning efficiency throughout the life of the blade

**High strength** aluminum extrusion

**Pole plate pre-drilled** for material path options, 3 different blade widths available

**Available with stainless steel components** for superior corrosion resistance

**Chemical-Resistant Blade**

**High-Temp Blade**  
135° C (275° F) with spikes to 160° C (325° F)

**Ultra High-Temp Blade**  
200° C (400° F) with spikes to 230° C (450° F)

**Universal mounting plates** easily mount and simplify installation

**Molded-in wear line** on all Flexco ConShear™ blades

**Rugged 2-3/8" (60mm)** diameter pole

**Simple blade replacement** - no tools needed

**Self-contained spring tensioner** allows for measurable and verifiable tension

## Features and Benefits

- **Works with Flexco mechanical splices.** The spring tensioner allows the blade to quickly move away from the belt when a splice passes. The polyurethane blade material easily glides over the splice without damage and with minimal cleaning disruption.
- **Compact, streamlined design.** The EZP1 Precleaner requires only 4" (100 mm) of horizontal clearance for correct installation. Its streamlined contours prevent material buildup on the blade or the pole.
- **Can be used on reversing belts.** Installing cleaners on both pulleys gives superior cleaning results on belts that run in both directions.
- **Fits most conveyor structures.** Available for belt widths from 12" to 72" (300-1800 mm).
- **Blade can be used on other cleaners.** The ConShear™ blade can be used as a replacement blade on many OEM cleaners.

### Specifications and Guidelines

- Maximum Belt Speed**  
700 FPM (3.5 M/sec)
- Temperature Rating**  
**Purple/White:** -30°F to 180°F (-35°C to 82°C)  
**Yellow:** -30°F to 275°F (-35°C to 135°C)  
Spikes to 325°F (160°C)  
**Red:** -30°F to 400°F (-35°C to 200°C)  
Spikes to 450°F (230°C)
- Minimum Pulley Diameter**  
10" (250 mm)
- Blade Height**  
7-1/4" (185 mm)
- Usable Blade Wear Length**  
4" (100 mm)
- Blade Material**  
**Purple/White:** Polyurethane 83 durometer  
**Yellow:** Polyurethane 93 durometer  
**Red:** Ultra High-Temp Polyurethane 90 durometer
- CEMA Cleaner Rating**  
Class 3
- Available for Belt Widths**  
12" to 72" (300 to 1800 mm)
- Horizontal Clearance Required**  
4" (100 mm)
- Vertical Clearance Required**  
9-1/2" (238 mm)
- Pole Length**  
Cleaner size up to 48" + 30"  
Cleaner size over 48" + 34"  
(Cleaner size up to 1200mm + 750mm)  
(Cleaner size over 1200mm + 850mm)
- Maximum Conveyor Span**  
Cleaner size up to 48" + 25"  
Cleaner size over 48" + 29"  
(Cleaner size up to 1200mm + 625mm)  
(Cleaner size over 1200mm + 725mm)
