FGP Food Grade Precleaner

USDA Certified Precleaner Meets Highest Standards for Industrial Baking Applications

The FGP Food Grade Precleaner from Flexco is the most effective food grade cleaner on the market at removing dough, flour, oils, frosting, and other sticky materials from the conveyor belt. And it is easy to install, maintain, and disassembles in a snap for regular cleaning, allergen cleansing, and sanitization. That means your pre-bake or post-bake lines can be up and running again fast. The FGP Precleaner works on any belt from 4" to 60" (100mm to 1500mm) and the blade is available in white, blue, metal detectable blue, and dual durometer metal detectable blue FDA-approved food grade materials.

Features and Benefits:

- Minimal hardware so installation, tensioning, and blade replacement are easy.
- **Simple design** with stainless steel components and food grade materials limit crevices and opportunities for bacteria growth.
- Easily tensioned to minimize blade wear, eliminate belt damage, and maximize cleanability.
- Optional metal detectable blue blade for additional protection against food contamination.
- **Dual durometer blade** with metal detectable tip for uneven or soft cover belts.
- Available in standard blade widths for belts from 12" to 60" (300 mm to 1500 mm). Blades can be cut down to appropriate length.
- Compatible with endless and mechanical splices. Suitable for use on modular belting.

FGP Food Grade Precleaner

Specifications:

- Temperature Range UHMW:
- -20°F to 140°F (-29°C to 60°C) Dual Durometer:
- +32°F to 140°F (0°C to 60°C)
- Blade Height 3.0" (76 mm)
- Blade Width Range 4" to 60" (102 to 1524 mm)
- Pole/Mounting Material 304 Stainless Steel
- Blade Hardness UHMW: 63D Shore Hardness Urethane: 85A Shore Hardness
- Pulley Diameter Range 2" to 10.5" (50 to 267 mm)
- Blade Material
 Food-grade UHMW, UHMW
 with Stainless Steel, or
 Urethane with PVC

How to choose the correct size blade for your conveyor.

- 1. Measure your belt width.
- Choose the Blade Width that corresponds to your belt width.
- 3. Measure your conveyor width.
- 4. Verify the Maximum Conveyor Width shown in the selection chart is larger than your conveyor width. If your conveyor width is smaller than the maximum width shown, choose the next larger blade width that accommodates your conveyor width.
- 5. Blade and/or pole can be cut to users required length. Pole must be 2" longer than the outside width of conveyor structure at the mounting location.
