

PTEZ™ Belt Trainers

Simple Yet Superior Belt Tracking Performance for Pulp and Paper Operations

The PTEZ™ Belt Trainer provides pulp and paper operations with a high-performance tracking idler at an economical price point. Employing our unique “Pivot and Tilt” feature using our patented PTEZ mechanism, the unit responds and compensates immediately to belt misalignment using the tapered end roller profile to engage the training action. This ensures that the belt stays away from the structure and the material stays on the belt without the use of sensor or edge rollers. As a result, the PTEZ may be used anywhere in the woodyard to provide tracking and prevent damage to the belt or structure. The PTEZ can even be used on chevron belts by mounting it on the “clean” side of the belt.

Features and Benefits

- **Works in multiple applications.** Single-direction and reversing belts. Wet or dry conditions. Belts with edge damage or wear. Belts mistracking to one or both sides. Mechanically fastened or vulcanized belts.
- **Easy ordering and installation.** Enhanced to meet instant demands for training solutions, the PTEZ is available on a short lead time. The simple brackets and component construction also ensure a quick and easy installation.
- **Simplified offering.** Standard-duty available for belt widths 450 to 1200mm. Heavy-duty available for belt widths 1050 to 2100mm.

PTEZ™ Belt Trainers

Specifications and Guidelines

Maximum Belt Speed: 5 m/s

Temperature Rating: -30° C to 71° C

Belt Direction: One-Way or Reversing

Available for Belt Widths:

Standard Duty: 450 to 1200mm

Heavy Duty: 1050 to 2100mm

Roller Material: 70 durometer polyurethane

Mounting Adjustability:

Horizontal: Belt width + 229 to 381mm

Vertical: 219 mm for SD; 406 mm for HD

Application Range: Standard-duty belts up to 280 N/mm max tension.

Heavy-duty belts up to 420 N/mm max tension.
