

UNIVERSAL LIGHTWEIGHT POLE

Up to 60% Lighter than Steel Poles

Flexco's Universal Lightweight Pole has been designed to be up to 60% lighter than steel poles. This means it's safer for workers to lift on-site whilst still providing the strength and rigidity needed for high-performing belt cleaners.

The pole has also been designed to suit a wide variety of Flexco primary and secondary cleaners, making ordering and stock piling easy for unexpected emergency shutdowns.

Universal Plate
to suit H-Type®, FMS,
MHS & P-Type® Cleaners

Features and Benefits:

- **Safety Driven Engineering.** The lightest cleaner pole on the market, engineered with safe lifting in mind.
- **Versatile.** Compatible with Flexco H-Type®, FMS, MHS & P-Type® Cleaners.
- **Made for Australian Mining Conditions.** Although lightweight, the universal pole has been tested to withstand the harshest mining conditions in Australia.

UNIVERSAL LIGHTWEIGHT POLE

Manual handling incidents account for over 30% of injuries in Australia. By specifying lighter equipment as standard on site, the risk of injury will significantly decrease.
