

NOVITOO[®] AMIGO[™] Splice Press for Homogeneous Belts

Engineered for Precision Belt Splicing

Splices in homogeneous belting must ensure tight pitch tolerance and be free from pinhole air pockets. With that in mind, everything about the Amigo[™] 625 and 1000 has been designed to do just that. And in typical Novitool[®] tradition, it was made to do it with ease, safety, and speed.

Custom templates are available to secure the belt when cutting and welding the belt ends to ensure accurate pitch control. Preheat mode dries belt ends of moisture to minimize pinholes. The Amigo Splice Press features a transport case for easy storage and transportation, making it ideal for in-shop or on-site splicing.

Features and Benefits:

- Splice time, including the time to heat the press and splice the belt, is **approximately one minute**.
- Pre-heat function dries moisture out of belt ends for **improved splice quality**, free of pinholes where bacteria can grow.
- **Unique heating element** brings the belt ends to the desired molten state without disrupting the material.
- Exclusive, **built-in safety features** like the integrated belt cutter and shielded heating element eliminates the need for utility knives and protects operators from the heat source.

Market Applications

- Proteins
- Baking
- Snack
- Fruit and Vegetable

NOVITool® AMIGO™ Splice Press for Homogeneous Belts

Amigo™ 625

Interchangeable Splice Templates for precise pitch splicing of belts from various belt manufacturers

Integrated Belt Cutter maintains accurate pitch in a single pass

Operates on **Single Phase 115V or 230V**

Amigo™ 1000

Contactless Heating provides for a controlled amount of clash without actual contact with the heat source

Digital Time Control with quick, simple splice settings; the **Pre-Heat Setting** can be used to remove moisture and avoid pinholes

The **Return Side splicing kit** includes components to enable splicing with the Amigo on the **return side** of the conveyor.

Custom **Transport Case** for easy storage and transportation

Amigo™ Press and Cable Ordering Information			
	Ordering Number	Item Code	
Press			
625 mm	AMIGO-625-SPLICEPRESS	09726	
1065 mm	AMIGO-1000-SPLICEPRESS	08545	
Cables			
115 volt; single phase; 15 amp	AMIGO-1000-CABLE-1X115-IEC520	08585	
230 volt; single phase; 7.5 amp	AMIGO-1000-CABLE-1X230-IECL620	08586	

NOTE: Press, cable, and templates are all purchased separately.

Amigo™ 625 Dimension Information		
	Dimensions	Weight
Machine	1000 mm x 315 mm x 170 mm	24.5 kg
Transport Case (includes additional templates and support equipment)	1210 mm x 490 mm x 385 mm	31 kg
Total Weight		55.5 kg

NOTE: The Amigo™ 625 is compact enough for a single operator to transport and operate.

Safety Features of the Amigo™ 625 & 1000

Integrated Cutter: Operator is protected from blade during single pass cutting operation.

Cutter Storage Position: Cutter must be in storage position for splicing function to operate.

Shielded Heat Zone: Guard must be closed for heat emitter to function. Operator is protected from heat source during splicing.

Cool Zone: Heater stows and cools inside unit as belt ends are butt-welded together.
