

# Hitch Guard Specialty Bracket Offerings

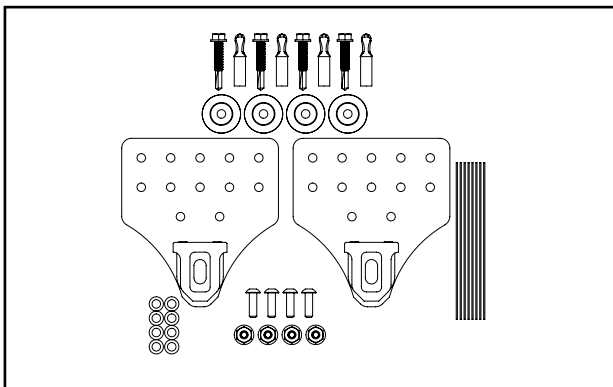

**Item Code: 04340**  
**Ordering Number: HITCHGD-V1-MOUNT**

- **Compatibility:** Hitch Guard
- **Installation:** Bolt on
- **Applications:** Mounting kit for Hitch Guard with Scanner Eye applications that include 3" horizontal belt to belt transfers where a bolted connection is desired or required, and there is little to no access beneath the transfer.

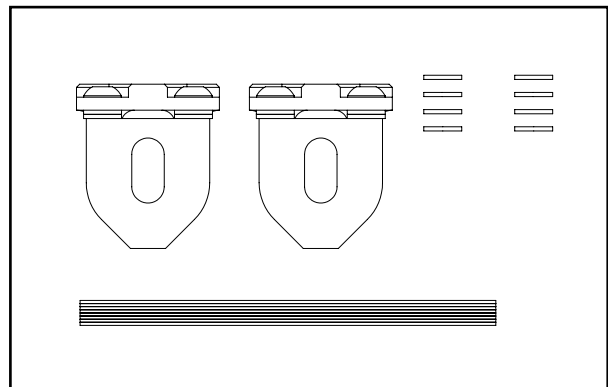

**Item Code: 04446**  
**Ordering Number: HITCHGD-V3-MOUNT**

- **Compatibility:** Hitch Guard
- **Installation:** Bolt on
- **Applications:** Universal Hitch Guard mounting kit for applications that include 3" horizontal belt to belt transfers where a bolted connection is desired or required, and there is little to no access beneath the transfer.

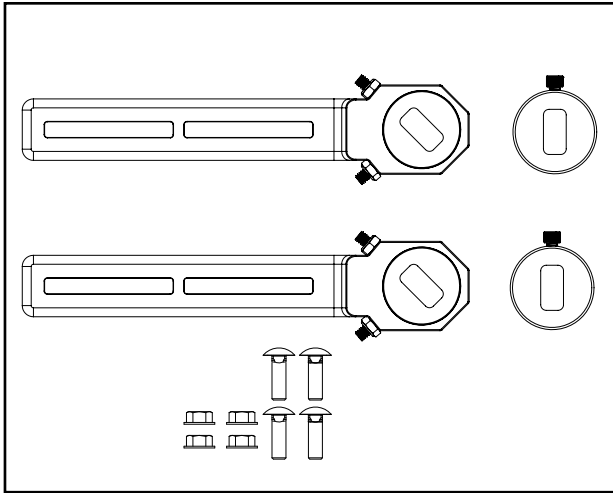

**Item Code: 111565**  
**Ordering Number: TG-MTG-KIT-V4WFHG**

- **Compatibility:** Hitch Guard
- **Installation:** Bolt on
- **Applications:** Optional Hitch Guard mounting kit for applications that include 3" horizontal belt to belt transfers where a bolted connection is desired or required, and there is little to no access beneath the transfer. This bracket is not recommended for use in typical hitch transfer applications.

**Item Code: 56651**  
**Ordering Number: TGB-HG-V4-MOUNTING-KIT**

- **Compatibility:** Hitch Guard
- **Installation:** Weld
- **Applications:** Wide flange Hitch Guard mounting kit for applications that include 3" horizontal belt to belt transfers where a bolted connection is desired or required, and there is little to no access beneath the transfer.

**Item Code: 112139**

**Ordering Number: HITCHGD-V5-MTG-RB ROT BRKT**

- **Compatibility:** Hitch Guard
- **Installation:** Bolt on
- **Applications:** Hitch Guard Mounting Kit for applications where a standard mounting kit will not fit or is not desired. The bracket is slotted and can be installed inside or outside of the conveyor structure. The hub rotates 360 degrees within the bracket and can be locked into place, allowing the Hitch Guards to be positioned at any angle relative to the belt. The bracket mounting position is also flexible due to the rotating hub.
