## INFORMATION

**HEAD OFFICE ADDRESS:** Flexco® (Aust.) Pty Ltd  
10 Solent Circuit  
Baulkham Hills, NSW 2153

**OFFICE TELEPHONE:** +61 2 8818-2000

**WESTERN AUSTRALIA OFFICE ADDRESS:** Unit 1/13 Ernest Clark Rd.  
Canning Vale, WA 6155  
Phone: 08 6253-8081  
Fax: 08 9456-2571

**BUNDABERG OFFICE ADDRESS:** 49 Hanbury Street, Bundaberg, QLD  
4670 Australia  
Ph: 07 4151-0359  
F: 07 4151-0568

**POSTAL ADDRESS:** P.O. Box 6365  
Baulkham Hills B.C. NSW 2153

**EMAIL:** salesau@flexco.com

**OFFICE FACSIMILE:** +61 2 8824-6333

**TERMS AND CONDITIONS:** Prices are in AUD exclusive of GST.

1. Stock items (non-shaded) please refer to asterisk (\*) for specific lead time, if not specified, standard 2-3 days lead-time applies.
2. Some assembled items and larger quantities may take longer, please contact Flexco for specifics.
3. Non-stock items (shaded) please contact Flexco for dispatch options and lead times.
4. Minimum order size for free shipping is \$4,000 net, excluding GST. Free shipping is not applicable to orders delivered to third parties.
5. Strictly Net 30 days unless otherwise negotiated.
6. 3rd party deliveries may be refused—please contact customer service.
7. Flexco endeavours to hold adequate stock levels at all times, however fluctuations do occur; stock is subject to availability.
8. All product refunds are subject to quality approvals before processing and may incur a restocking fee.

**LIMITED LIABILITY:** Every effort is made to ensure the information contained in this price book is accurate and in accordance with all current specifications, however the company cannot be held responsible for any errors and reserves the right, without prior notice, to change specifications, quantities, and prices.

# Belt Cleaner Information and Selection Guide

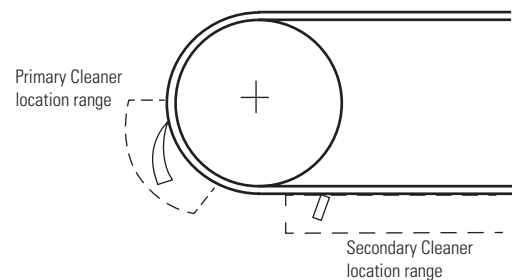

## Why Are Belt Cleaners Needed?

- **Reduces Maintenance Costs**
  - Minimises manual cleanup.
  - Protects against belt mistracking.
  - Reduces conveyor component replacement costs.
  - Reducing carryback means a reduction in maintenance costs.
- **Improves Safety**
  - Reduces housekeeping problems.
  - A majority of conveyor-related accidents happen while maintenance tasks are being done.
- **Keeps Conveyors Running Efficiently and Consistently**
  - Reduces unscheduled downtime.
  - Increases production uptime.
- **Saves Money**
  - Increases belt wear life.
  - Extends life of rollers, pulleys and splices.
  - High cost of accidents.

## Types of Belt Cleaners

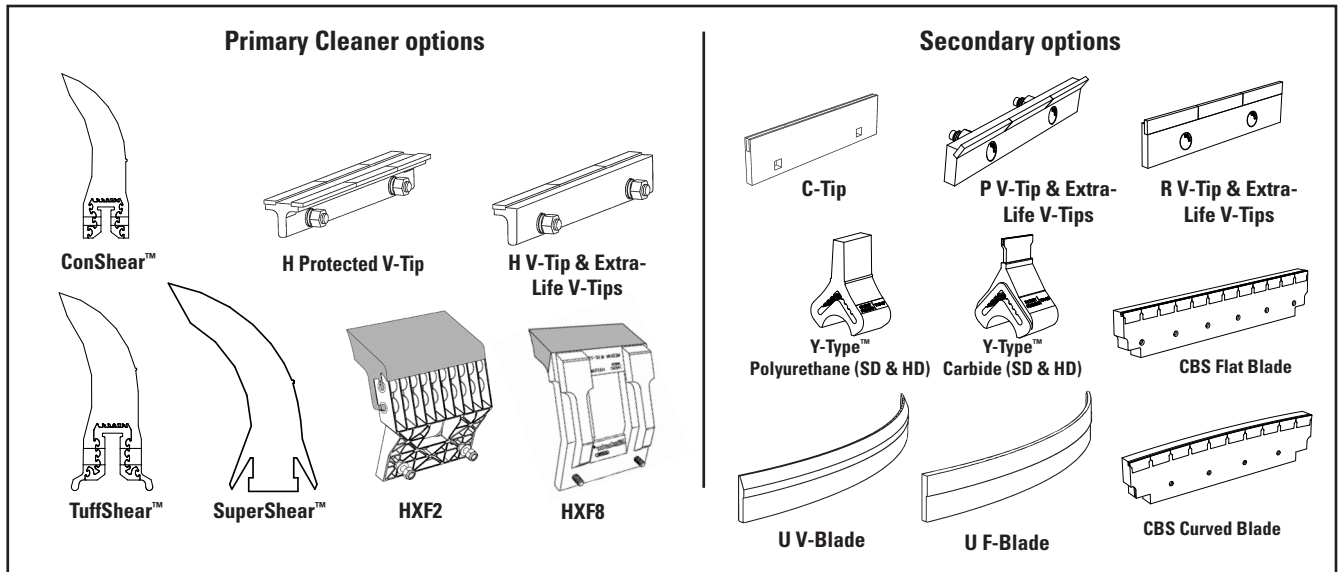

- **Primary Cleaners**
  - Mounted on the head pulley.
  - Mounted below the material flow.
  - Removes the big stuff. Typically cleans off up to 80% of the initial carryback.
- **Secondary Cleaners**
  - Located just past where the belt leaves the head pulley and anywhere down the beltline.
  - Special secondaries may allow for mounting under the head pulley.
  - Removes sticky fines – the final cleaning job.
  - May require a hold-down roller for maximum performance.
- **Specialty Cleaners**
  - Primary Cleaners or Secondaries designed especially for specific or extreme applications.

## Definition of Terms

- **Carryback**—Material that sticks to the belt after it leaves the transfer point and continues falling off along the conveyor's return side.
- **Material Path**—The section of the belt where most of the material is conveyed. Typically the center 2/3 of the belt.
- **Hold-Down Roller**—A stabilising roller or pressure roller located on top of the return side of the belt to prevent belt flap or to provide a consistent flat surface for the blades on a lighter-tensioned belt.

# Types of Cleaner Blades

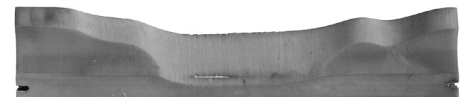

**F-Tip/Blade** - for mechanically fastened belts    **V-Tip/Blade** - for vulcanised belts only - **C-Tip/Blade** - for both

## Polyurethane Blades

Not all polyurethanes are the same. Flexco's polyurethane blades are specially formulated for abrasion resistance and long wear. Independent testing has shown that Flexco's polyurethane blades last as much as 30% longer than other OEM blades.

- Easy on the belt.
- Work well with mechanical splices.
- Economical.
- Specialty formulations for high heat, chemical resistance, or water removal.
- FRAS for underground applications.

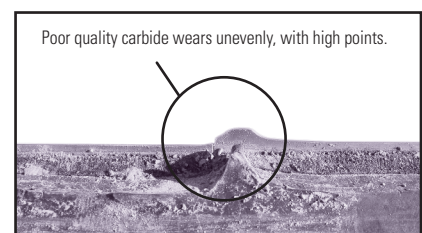

Less advanced polyurethane formulations result in blades that experience quicker wear and provide less-efficient cleaning.

## Tungsten Carbide

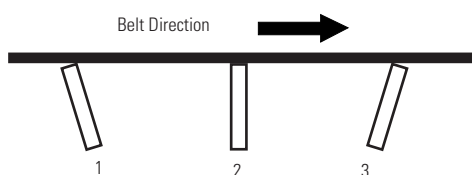

Excellent for superior cleaning efficiency and long wear. The quality and application of carbides can vary. Flexco has invested years of research and testing to develop tungsten carbide tips for both vulcanised and mechanically fastened belts; and a quality process ensures consistent results.

- Superior cleaning.
- Long wear.
- C-Tips/blades for mechanical splices and V-Tips/blades for vulcanised belts.

Poor quality carbide wears unevenly, with high points.

## Blade Angle (Secondary cleaners)

1. Aggressive - excellent cleanability, high risk for belt damage.
2. 90° to belt - good cleaning efficiency; must have good blade relief for splices (Flexco recommended).
3. Wiping - a little less cleaning power; safer on belts in poor condition or with poor mechanical splices.

# Belt Cleaning Systems

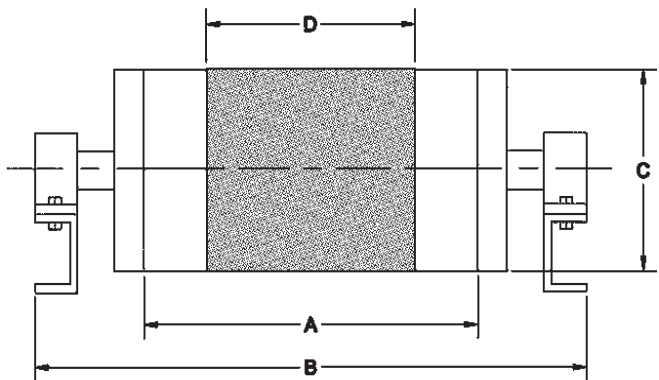

## ***Keys to Good Belt Cleaning***

- Proper cleaner selection for the application
- Correct installation
- Regular service maintenance

## ***Specifying and Ordering Belt Cleaners***

### ***Information needed:***

- A.** Belt Width
- B.** Conveyor frame (structure) width
- C.** Head pulley diameter
- D.** For Primary Cleaners - what is the belt's material path?
- E.** Material conveyed (dry, wet, sticky, etc.)
- F.** Type of belt splice:
  - Mechanical - skived or unskived
  - Vulcanised
- G.** Temperature or other extreme environmental factors
- H.** Does the belt reverse?

1800	1750	EZP1T-272	78497	101.6

### Product Notes:

- For optimal cleaning and reduced blade retensioning maintenance, the cleaner blade width should be sized to fit the material path of the belt. The material path is typically 2/3 of the belt width. In most cases a blade size of belt width minus 200 mm may be the best selection.
- Each cleaner can be retrofitted with three replacement blade sizes (belt width minus 50, 200, or 350 mm).
- Comes complete with universal mounting plates and tensioner.
- Visual tension check. No guesswork on blade tensioning. Simply measure the spring, check label on tensioner and turn adjusting nut to restore optimal tension.
- Works with mechanical splices. Polyurethane blade glides over splices.
- Compatible with reversing belts.
- For applications requiring longer pole lengths, go to the minus 200 mm chart and select the cleaner one belt width size larger. This will provide a pole 150 mm longer and a blade size of belt width minus 50 mm.

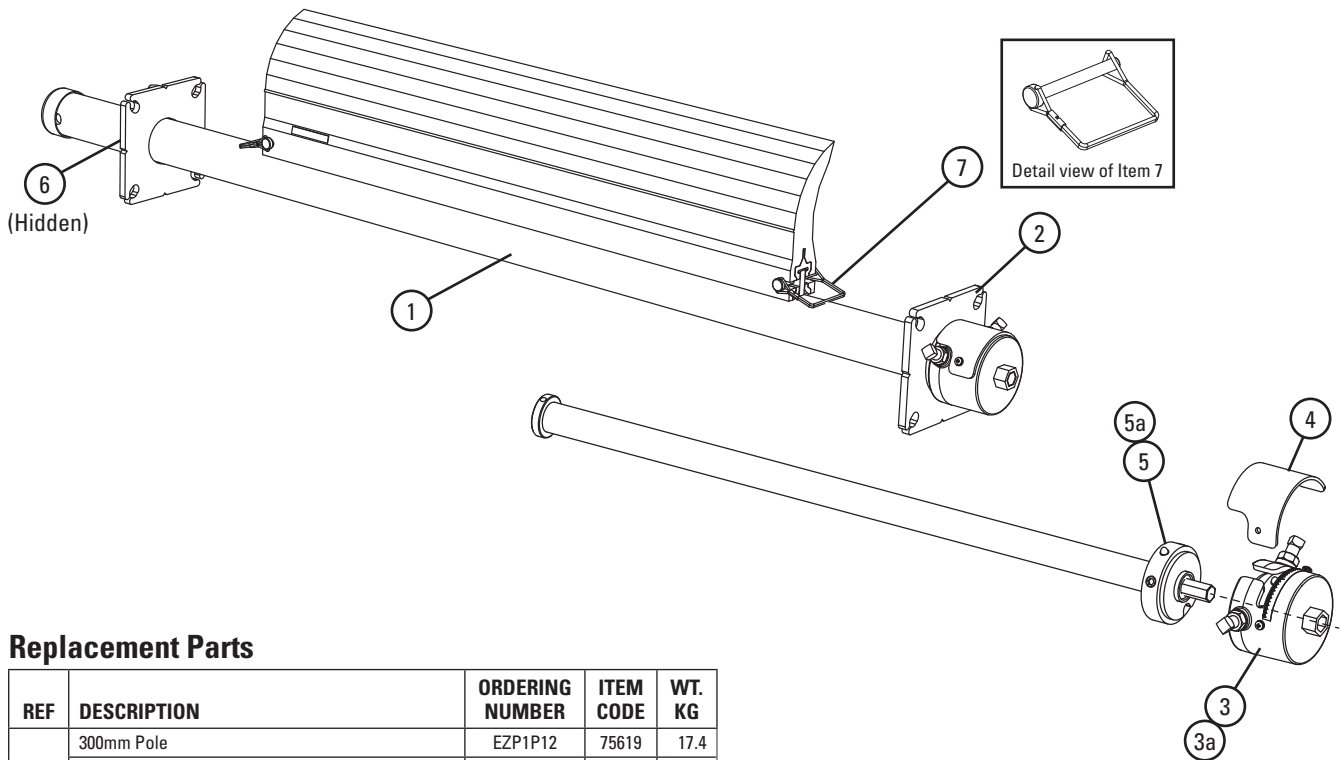

Stock items (non-shaded) refer to (\*) for specific lead time, if not specified, standard lead time applies.

Other blade sizes available upon request.

## Product Notes:

- A molded-in wear line indicates when the blade is worn out and needs to be replaced.
- Faceted blade profile: Renews its cleaning edge as the blade wears.
- MegaShear™ blades are made of a special long-wearing polyurethane.
- Quick blade replacement: Pull one pin, remove the old blade and slide the new one in.

1500	1350	9
1800	1650	11
2100	1950	13

Blades and cartridges can be purchased separately or preassembled as a Blade Cartridge Kit

### Product Notes:

- Heavy-duty design with massive SuperShear™ blades for constant cleaning power on abusive beltlines.
- Blade width equals Belt Width minus 150 mm. Can be adjusted to belt's material path.
- Pole Length: Belt Width plus 1450 mm. For longer requirements see Mineline® Installation Accessories - Pole Extender Kit.
- Tensioner Options: 1) PST Spring Tensioner for self-adjusting tensioning with easy retensioning adjustments;  
2) AWT Air/Water Tensioner for automatic tensioning throughout the life of the blades.

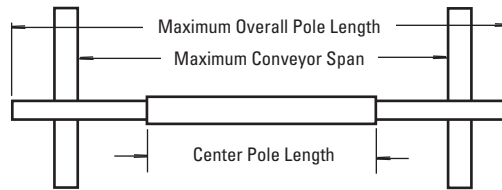

Stock items (non-shaded) refer to (\*) for specific lead time, if not specified, standard lead time applies.  
Non-stock items (shaded) please contact Flexco for dispatch options and lead times.

Lead time: 2 weeks

### Product Notes:

- Works on reversing belts, vulcanized belts, and belts with mechanical fasteners.
- Visual Blade Tension Check: Measure the tension spring and refer to Spring Length Chart on mounting base for the correct length for best cleaning performance.
- Tensioner: Standard Duty YST Spring Tensioner for self-adjusting tensioning with easy retensioning adjustments. The tensioner can be mounted in pull-up or push-up position.
- Simple design makes changing blades fast and easy. Blades can be removed and replaced individually, or all at once with the cartridge.

### Product Notes:

- Works on reversing belts, vulcanized belts, and belts with mechanical fasteners.
- Visual Blade Tension Check: Measure the tension spring and refer to Spring Length Chart on mounting base for the correct length for best cleaning performance.
- Tensioner: Standard Duty YST Spring Tensioner for self-adjusting tensioning with easy retensioning adjustments. The tensioner can be mounted in pull-up or push-up position.
- Simple design makes changing blades fast and easy. Blades can be removed and replaced individually or all at once with the cartridge.

3000	3000	20

### Product Notes:

- Patented Service Advantage Cartridge™ allows for easy removal in even the dirtiest conditions.
- Heavy-duty design to deliver maximum cleaning efficiency on the most demanding, abusive beltlines.
- Pole Length: Belt width plus 1350 mm (single cartridge cleaners); Belt width plus 1500 mm (dual cartridge cleaners).
- Patented PowerFlex™ cushion design to maintain continuous blade-to-belt contact and quick relief from passing mechanical splices.
- C-Tips are for mechanically fastened or vulcanised belts. V-Tips are for vulcanised belts only.
- Visual Blade Tension Check: Measure the tension spring and refer to Spring Length Chart on mounting base for the correct length for best cleaning performance.
- Tensioner mounting brackets included for fast and easy installation.
- Cartridge Removal Kit included for easy removal of the cartridge.

### Product Notes:

- Patented Service Advantage Cartridge™ allows for easy removal in even the dirtiest conditions.
- Heavy-duty design to deliver maximum cleaning efficiency on the most demanding, abusive beltlines.
- Pole Length: Belt width plus 1350 mm (single cartridge cleaners); Belt width plus 1500 mm (dual cartridge cleaners).
- Patented PowerFlex™ cushion design to maintain continuous blade-to-belt contact and quick relief from passing mechanical splices.
- C-Tips are for mechanically fastened or vulcanised belts. V-Tips are for vulcanised belts only.
- Visual Blade Tension Check: Measure the tension spring and refer to Spring Length Chart on mounting base for the correct length for best cleaning performance.
- Tensioner mounting brackets included for fast and easy installation.
- Cartridge Removal Kit included for easy removal of the cartridge.

Stock items (non-shaded) refer to (\*) for specific lead time, if not specified, standard lead time applies.  
Non-stock items (shaded) please contact Flexco for dispatch options and lead times.

Lead time: 4 weeks

### Product Notes:

- The ConShear™ "DryWipe" (DW) Blade is excellent for removing water from the belt. Use as the final cleaner in a cleaning system.
- Actual blade width is belt width plus 100 mm. The extra length ensures the water is removed from the belt.
- Pole Length: Belt width plus 1500 mm for cleaners up to 1500 mm, belt width plus 1350 mm for cleaners over 1500 mm.
- Visual Blade Tension Check: Measure the tension spring and refer to the Spring Length Chart on mounting base for the correct length for best cleaning performance.

Stock items (non-shaded) refer to (\*) for specific lead time, if not specified, standard lead time applies.

Non-stock items (shaded) please contact Flexco for dispatch options and lead times.

### Specifications:

- Maximum Belt Speed .....5 m/s (1000 FPM)
- Temperature Rating .....-35 to 82°C
- Usable Blade Wear Length.....113 mm
- Blade Height.....185 mm
- Blade Material .....Polyurethane with UHMW additive (softer durometer to squeegee water off and additive to enhance blade life)
- Available for Belt Widths .....600 to 2400 mm. Other sizes available upon request.
- CEMA Cleaner Rating .....Class 4

\*Hardware Included

## Product Notes:

- Free-rotating. Works only when the belt is running.
- Self-cleaning. Finger length, spacing and the rotary action allows carryback to fall free instead of clogging.
- Easy to install. Few parts and step-by-step instructions make the job simple.
- Long-wearing SBR rubber. Drum life ranges from 1–3 years depending upon application conditions and material conveyed.
- Works on reversing belts.
- Finger rings can be replaced individually or all at once by replacing the drum.

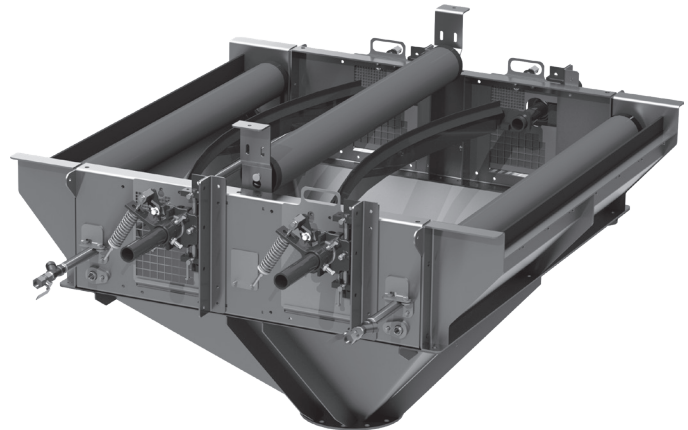

## Specifications:

- Maximum Belt Speed ..... 2.5 m/s
- Vertical and Horizontal Clearance..... 250 mm
- Temperature Rating ..... -35 to 82°C
- Maximum Chevron or Cleat Height ..... 25 mm
- Finger Length ..... 50 mm
- Rubber Durometer..... 45A
- Overall Diameter..... 238 mm

## Optional Mounting Kits

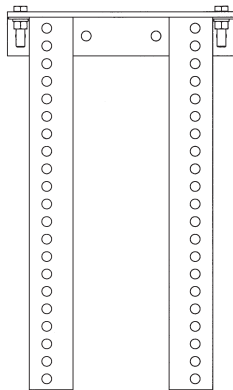

### OPTIONAL MOUNTING KITS FOR BELT CLEANERS

Versatile, adjustable brackets and plates that can be mounted on the conveyor structure so primary and secondary cleaners can be easily and quickly bolted into place.

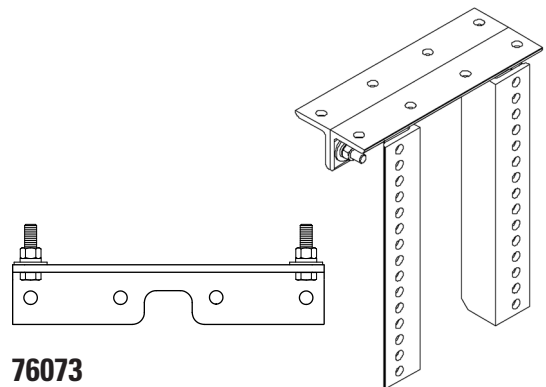

#### 76071

Standard Mounting Bracket Kit  
 • For most secondary cleaner installs.

#### 76072

Long Mounting Bracket Kit  
 • For installations that require extra length legs.

#### 76073

Optional Top Angle Kit  
 • Used with both standard and long mounting bracket kits for additional mounting options.

### Optional Mounting Kits

(incl. 2 brackets/bars)

DESCRIPTION	ORDERING NUMBER	ITEM CODE	WT. KG
Standard Mounting Bracket Kit*	SSTSMB	76071	15.6
Long Mounting Bracket Kit*	SSTLMB	76072	19.7

\*Hardware Included

### Specifications:

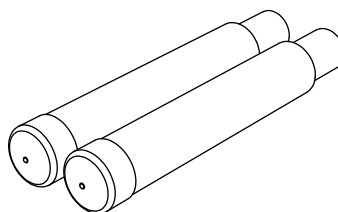

- Standard brackets are 330 mm W x 394 mm L.
- Long brackets are 330 mm W x 546 mm L.
- Mounting bars are 38 mm W x 406 mm L with (4) 16-279 mm tapped holes.
- Mounting plates are 406 mm W x 813 mm L with (4) 16 mm holes.

### Pole Extender Kit

(incl. 2 pole extenders)

DESCRIPTION	ORDERING NUMBER	ITEM CODE	WT. KG
Pole Extender Kit	MAPEK	76024	9.9

Provides 750 mm of extended pole length.

Stock items (non-shaded) refer to (\*) for specific lead time, if not specified, standard lead time applies.  
 Non-stock items (shaded) please contact Flexco for dispatch options and lead times.

## What is a Flexco Smart Belt Cleaner?

Flexco Smart Belt Cleaners harness the power of Flexco Elevate® to allow real-time, remote monitoring of belt cleaners to increase operational efficiency and transparency. The Flexco Elevate® IoT System combines the i3 Device, i3 Mobile App, and i3 Dashboard with just a few easy steps and within minutes you can transform your belt cleaners into Smart Belt Cleaners. Once the i3 device is installed on any Flexco belt cleaner pole, insights are immediately transferred to Elevate dashboard. That information combines with maintenance information that is logged via the mobile app to provide predictive data-driven insights direct to your dashboard so you can monitor belt cleaner productivity and measure internal efficiencies remotely.

## What are the Benefits of a Smart Belt Cleaner?\*

- **Asset management:** Digital mapping of all installed cleaners at your location and across your operations provides visibility of assets and allows for more efficient resource planning.
- **Increased Productivity:** Elevate® makes it easy to manage your belt cleaner service, you know exactly when and where to deploy maintenance support
- **Improved Safety:** Elevate® reduces, and in most cases eliminates, the need for dangerous physical inspection along the beltlines.
- **No Guesswork:** Your team will know exactly when and where service is needed on Flexco cleaners from the convenience of the dashboard.
- **ROI from Day One:** Data insights are immediately transferred to your Elevate Dashboard so you can realise an increase in operational efficiency from day one.
- **Leverages Existing Assets:** The Elevate® Platform works with your existing Flexco belt cleaners – no additional investment in cleaners is required.
- **Remarkably Easy:** From installation and activation, to app and dashboard, everything about Flexco Elevate® is user-friendly and designed to make your job easier.

\* Specific benefits vary between solutions

## The Power of Insights

- **Data build insights:** Data are the foundation of insights, and more data collected on your site equates to more insights.
- **Ground truth:** Ground truth collection is the process of matching real-world situations to the data collected, and all insights are created based on ground truth validation.
- **Technology partners:** Flexco teams up with world-class partners to provide various development and data science features to turn data into insights as well as storing, securing and managing data for Flexco's digital solutions.

## Evolving Tools

- **Unlike physically manufactured products, digital solutions are remotely upgraded over time to enable more features.** This continuous upgrade strategy allows users to have the most up-to-date security, insights and enhancements available (select feature enhancements will be fee-based).

# Product Ordering Information

## Inspection Doors

Flexco can create inspection doors and cleaner mount inspection doors to suit your system. Please contact customer service for more details.

### Product Notes:

- Please contact Flexco for pricing and lead times.
- Inspection doors are available in a range of sizes, please contact your Flexco representative or customer service for more information.
- Inspection doors can also be designed to your specifications.
- Constructed from heavy-duty grade 316 Stainless Steel.
- The solid outer door can be safely opened by hand without the need for any tools during normal operation of the equipment.
- The inner door features 3mm mesh at 50mm spacing and requires tools to remove ensuring workers remain safe behind the mesh.
- Cleaner tensions sit outside the mesh, allowing for staff to safely and effectively tension cleaners.

## SAMPLE SPECIFICATIONS AND GUIDELINES

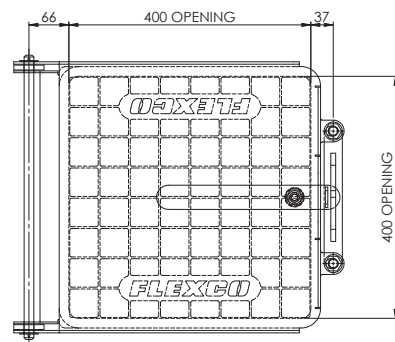

### Inspection Door 300 x 300 mm

Chute Opening:	300mm x 300mm
Outer Door:	Solid c/w Lockable Handle
Inner Mesh Door:	3mm mesh @ 50mm spacing
Material:	Grade 316 Stainless Steel
Overall Weight:	8kg

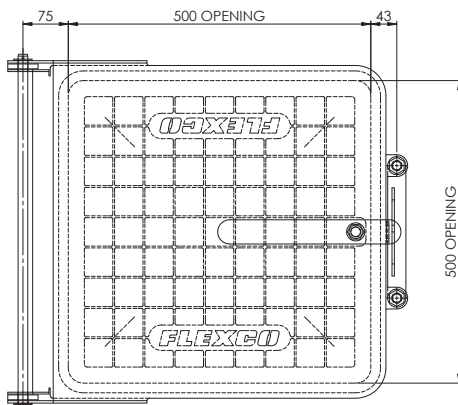

### Inspection Door 400 x 400 mm

Chute Opening:	400mm x 400mm
Outer Door:	Solid c/w Lockable Handle
Inner Mesh Door:	3mm mesh @ 50mm spacing
Material:	Grade 316 Stainless Steel
Overall Weight:	13kg

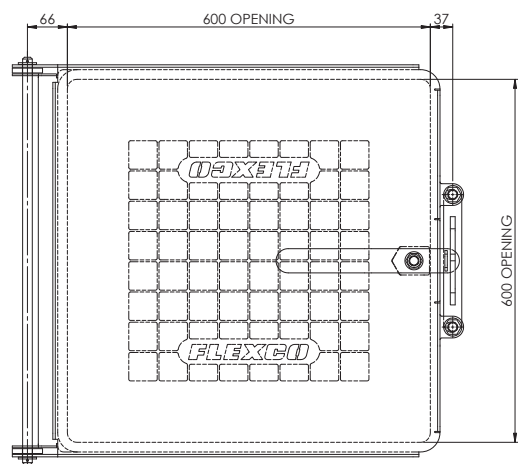

### Inspection Door 500 x 500 mm

Chute Opening:	500mm x 500mm
Outer Door:	Solid c/w Lockable Handle
Inner Mesh Door:	3mm mesh @ 50mm spacing
Material:	Grade 316 Stainless Steel
Overall Weight:	18kg

### Inspection Door 600 x 600 mm

Chute Opening:	600mm x 600mm
Outer Door:	Solid c/w Lockable Handle
Inner Mesh Door:	3mm mesh @ 50mm spacing
Material:	Grade 316 Stainless Steel
Overall Weight:	32kg

### Easy Solution for Load Zone Problems

- Complete load zone offering with slider beds through impact beds for up to 100 kg-m of force.
- No specifying trough angle; each bed is adjustable for 20°, 35° and 45° trough settings (ships at 35° setting)
- Low-profile installation. Because Flexco beds feature trough wings that are adjustable, they lay flat during installation, providing more clearance.
- Full UHMW slider bars included on outside bar to provide proper sealing and long life.
- Unique Impact Bar Supports protect the impact bars from damage, extending service life. An Anti-Migratory Tab on each support secures the bar and prevents it from sliding in the direction of belt travel.
- All beds are manufactured for mounting holes belt width + 250 mm (600–1200 mm beds), + 300 mm (1350–1500 mm beds), and + 400 mm (1800 mm beds). For wider structure, contact Customer Service for special quote.

## It's the Structure, not the bars

*It absorbs more impact to save your belt. Our exclusive Velocity Reduction Technology™ provides two levels of impact relief.*

Level 1: **Impact Bars** first absorb impact energy. Unique Impact Bar Supports on all DRX™ Impact Beds allow the impact bars to function properly - expanding and absorbing more impact energy.

Level 2: On DRX™ 200, 750, and 1500 impact beds, **Isolation Mounts** provide a second level of reaction force reduction, absorbing additional impact energy and minimising transmission back to the belt. The DRX™3000 Dynamic has **Impact Energy Absorbers** to disperse an immense amount of impact, even in extremely severe applications.

### User-Friendly Slide-Out Service™

- All DRX Impact Beds separate in the middle to slide apart and out.
- Can be easily and safely converted from the run position to the service position.
- Impact bars are easy to get to for changeout. A complete changeout can be done in one or two hours.

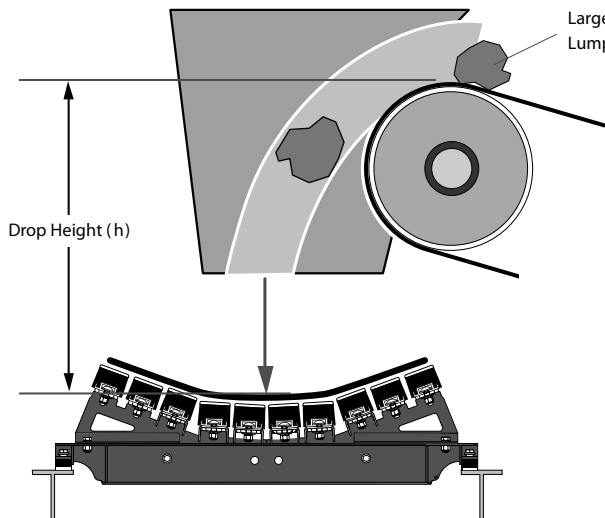

**Unique Impact Bar Supports protect the impact bars from damage, extending service life. An Anti-Migratory Tab on each support secures the bar and prevents it from sliding in the direction of the belt.**

### Other Features and Benefits

- Uses exclusive anti-spin square washers. Allows use of carriage bolts to secure impact bars instead of expensive T bolts.
- Centre bars are tilted 3° inward to help centre the load on the belt.

### How to spec the correct impact bed for your conveyor transfer point

NOTE: Polyurethane blades are approved for use in underground mines.

For belt widths over 1800 mm contact Flexco.

Lead time: 1 week

### Product Notes:

- Exclusive blade design - 20° slant on leading edge spirals debris off the belt.
- Self-adjusting blade - the blade floats on the belt and self-adjusts as it wears.
- Unique blade adjuster - turnbuckle-type adjuster allows the blade to be accurately positioned to the belt.
- Easy to install - comes fully assembled and can be placed right into position on the conveyor.

### Product Notes:

- Lasts up to 12 months longer than the leading competitor blade.
- Can be retrofitted to existing ESS V-Ploughs. The design of the blades allows a simple retrofit to existing ploughs.
- Simple and quick replacement for new blades. Due to the simple cartridge design of the blades, the replacement of blades is a quick and simple job, reducing the down time required.
- Discharges to both sides of the belt. The plough is angled to discharge materials to both sides of the belt, making it as convenient as possible for cleanup.
- Reduces belt mistracking.
- Use 93A durometer polyurethane to ensure exceptional wear life.

Stock items (non-shaded) refer to (\*) for specific lead time, if not specified, standard lead time applies.

Non-stock items (shaded) please contact Flexco for dispatch options and lead times.

### Product Notes:

- A belt cleaner for the tail pulley. Prevents damage to the belt, pulley, lagging, and belt splice.
- Keeps fugitive materials off the inside of the belt and out of the tail pulley.
- Installed at a 45° angle across the belt to discharge material to one predetermined side.
- The blade is installed in a fixed position, eliminating any bouncing problems.
- Exclusive 20° angled blade quickly spirals material off the belt.

# Product Ordering Information

**Belt Positioner™**

## Belt Positioners with Steel Rollers

SIZE	BELT WIDTH (MIN-MAX)	POSITIONER WIDTH (MIN-MAX)	ORDERING NUMBER	ITEM CODE	WT. KG
	mm	mm			
Small	450-600	600-850	PSR-S-F	105629	31.7
Medium	750-1200	850-1400	PSR-M-F	105630	38.5
Large	1350-1800	1400-2075	PSR-L-F	105631	49.8
Extra Large	1800-2400	1800-3000	PSR-XL-F	105632	90.7

Lead time: 4 weeks

## Specifications:

- Use next larger size for belt widths between ranges.
- Idler rollers on sizes: S, M, L: 127 mm diameter  
XL: 152 mm diameter
- Finish: All steel parts are powder coated. All nuts and set screws are metric in 300 series Stainless Steel.
- This product is also available in Stainless Steel. Please contact Flexco for pricing.

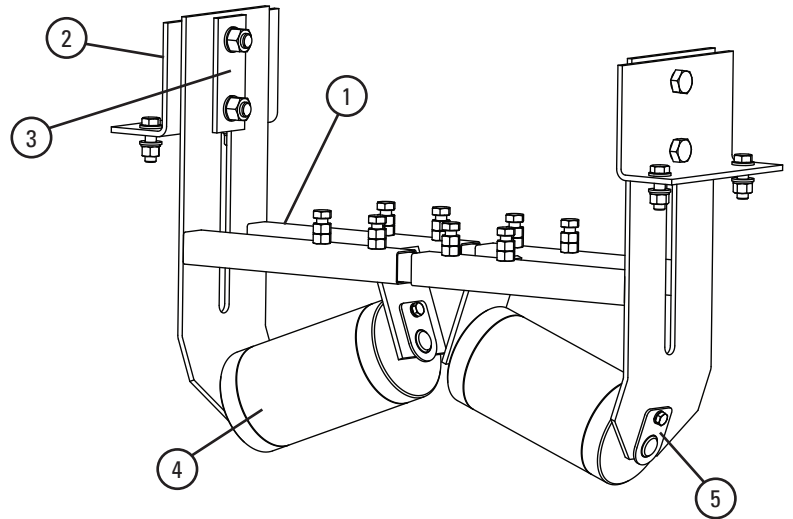

## Product Notes:

- The Positioner should be centered between two standard return rollers. For general applications-standard belts up to 1800 mm: position the unit no closer than 900 mm to a return roller and no farther than 1.8 meters.
- Works on the return side of the conveyor using simple angled rollers mounted in a fixed position to quickly and continuously funnel the belt into the correct path.
- A "quick fix" solution for belts that consistently wander to one side.
- Typically installed before the tail pulley to keep the belt centred at the critical loading point. Centre loading is the key to solving many top side tracking problems.
- Idler rollers make smooth contact with the return belt's bottom cover, eliminating excessive wear and damage to the belt's edges.
- Has no pivoting mechanism to freeze up and cause the unit to stop working.
- Once installed, no further adjustment is required.

**Stock items** (non-shaded) refer to (\*) for specific lead time, if not specified, standard lead time applies.

Bracket set for 1 roller

## Product Notes:

- Simple adjustable mounting brackets ensure quick and accurate installation.
- Urethane roller cover ensures long-lasting performance.
- Works in multiple applications, yet economical. Single-direction and reversing belts. Wet or dry conditions. Belts with edge damage or wear. Belts mistracking to one or both sides.
- Easy ordering and installation. Enhanced to meet instant demands for training solutions, the PTEZ is available on a one-working-day lead time. The simple brackets and component construction also ensure a quick and easy installation.
- Uses tapered and patterned roller to activate the trainer movement. Pivot influences direction while Tilt increases the tension on the mistracked side—the result is two forces quickly moving the belt back to center.
- Works with mechanically fastened or vulcanized belts.

PT Max™ Adjustable V-Return Belt Trainer

Please contact Flexco for availability and lead times.

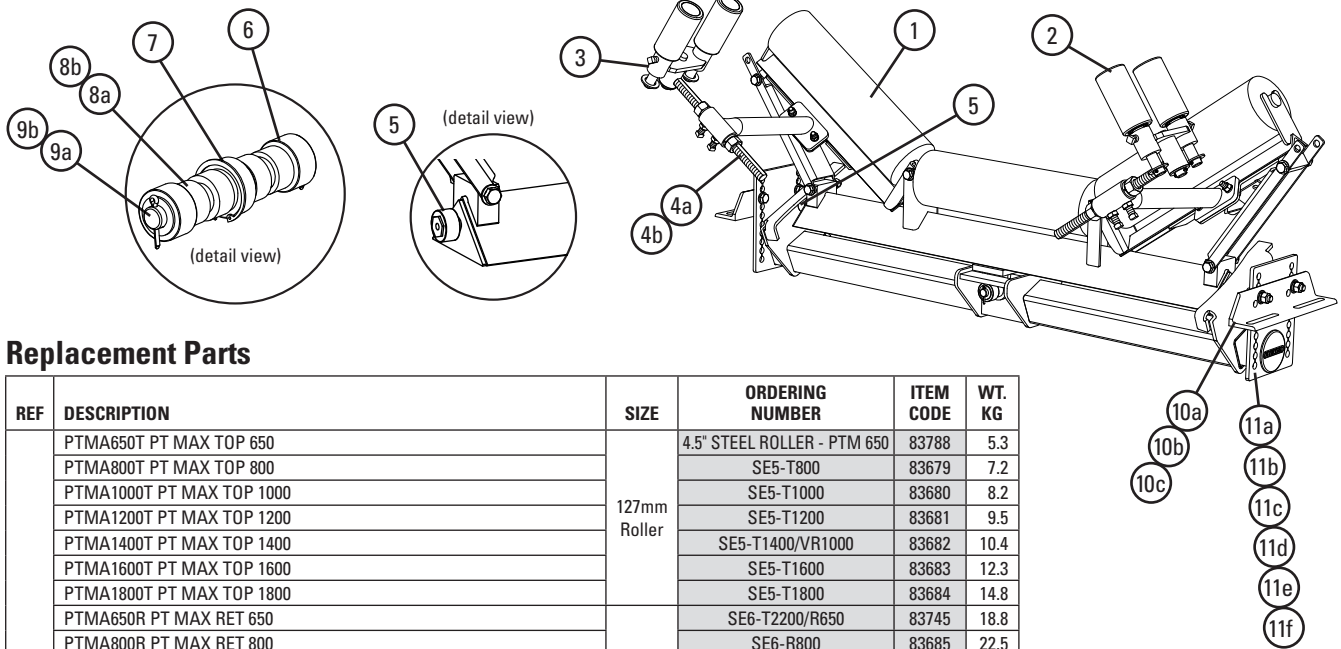

### Product Notes:

- PT Max™ Adjustable takes the best features from the PT Max™ and integrates the adaptability of the PT Smart™ to create a fully-adjustable design that can fit almost any conveyor configuration without needing a data sheet.
- Standardised parts allow us to manage costs, include the rollers, and reduce lead times – down to 1 day on core sizes.
- Works in multiple applications. Top side or return side belts. Heavy duty or medium duty operations. Wet or dry conditions. Belts mistracking to one side or both sides. Whatever the issue, PT Max™ Adjustable has the answer.

**Stock items** (non-shaded) refer to (\*) for specific lead time, if not specified, standard lead time applies.
   
 **Non-stock items** (shaded) please contact Flexco for dispatch options and lead times.

Flex-Seal™ Skirt System

Bolt-On PAL PAK

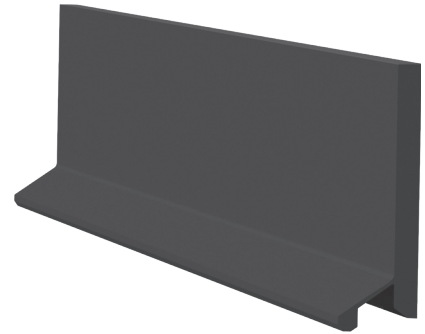

## Product Notes:

- Solves material spillage problems in the conveyor loading zone.
- Stops material loss, eliminates safety hazards, and reduces wear on conveyor components.

## Dual Seal Polyurethane Skirting

### Dual Seal Polyurethane Skirting

HEIGHT	THICKNESS	LENGTH	CHAMFER	ORDERING NUMBER	ITEM CODE	WT. KG
mm	mm	m				
150	12	7.6	35°	SKPU-DUAL-150x12x7.6	91400	21.3
	20			SKPU-DUAL-150x20x7.6	91401	30.8
200	12			SKPU-DUAL-200x12x7.6	91402	27.4
	20			SKPU-DUAL-200x20x7.6	91403	40.0
150	12	15.2		SKPU-DUAL-150x12x15.2	91404	42.6
	20			SKPU-DUAL-150x20x15.2	91405	61.5

	20			SKPU-DUAL-200x20x15.2	91407	79.9

### Product Notes:

- Secondary seal provides a floating contact area behind the main slab to prevent spillage.
- Polyurethane skirting offers a more wear-resistant material than typical rubber, often providing as much as 3–4 times the wear life in similar applications. The lower coefficient of friction reduces strain on the system.
- Works with Flexco series of skirt clamps that offer simple serviceability: RMC1/PAL-Pak, Flex-Lok™, and Flex-Seal™.
- Uses soft durometer (65A) polyurethane with exceptional tear resistance to ensure a good seal and long belt life.
- 7.6 m roll size ensures easy transportation, while the 35° chamfer eliminates the typical skirting break-in period.
- Suitable for most applications: single direction or reversing belts, wet or dry conditions, old or new belts, vulcanized or mechanically-spliced systems.
- Rated for temperatures from -30 to 82°C.

# Product Ordering Information

## Enclosed Skirt System

### COMPONENTS

**A. SKIRT BOARD** – required  
Available in 1200 or 2400 mm sections

**C. END PLATE** – optional  
For belt widths 600–2400 mm

**B. SUPPORT LEGS** – required  
For belt widths 600–2400 mm  
Sold as two legs with a cross bar support

**D. COVER PLATE** – optional  
Available in 1200 mm sections  
For belt widths 600–2400 mm

### Product/Ordering Notes:

- Maximum span between support legs is 2400 mm (or 2.4 M) and they are to be attached to the conveyor stringer or truss
- Skirting solutions do not include required skirt rubber; purchase from local Flexco distribution
- Straight skirt wall and tangential skirt wall available for different skirt rubber sealing options
- Product is built and sold to CEMA standards
- Skirt board liners are made with AR400 abrasive resistant plate steel

### Ordering Example:

For a covered 1200 mm belt skirting system to cover 2.4 M of conveyor, as shown above, with (2) 1200 skirt covers, (4) 1200 mm tangential skirt walls, (1) rear seal, and (2) support legs the following should be ordered:

- (2) Covers, order number: SC-7-48
- (4) 1200 mm Tangential Skirt Wall, order number: 4-X-15-4-T-1 or (2) 2400 mm skirt walls, use 8-X-15-4-T-1
- (2) Support Legs, order number: LA-48
- (1) Rear Seal, order number: RS-1-15-48-35

 **Stock items** (non-shaded) refer to (\*) for specific lead time, if not specified, standard lead time applies.

 **Non-stock items** (shaded) please contact Flexco for dispatch options and lead times.

# Product Ordering Information

## Enclosed Skirt System

\*For pricing details on enclosed skirt system parts and complete units, please contact Flexco.

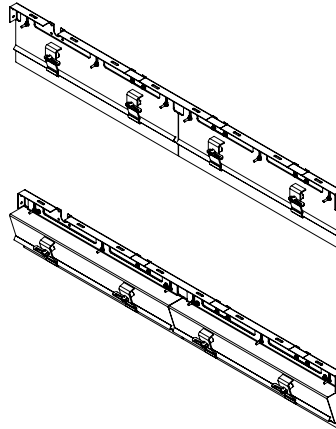

### Skirt Walls\*

Skirting sections do not include required skirt rubber; purchase from local Flexco distribution.

WALL LENGTH mm	STRAIGHT SKIRT WALL	
	ORDERING NUMBER	WT. KG
1219	4-X-15-4-S-1	29.5
2438	8-X-15-4-S-1	59.0

WALL LENGTH mm	TANGENTIAL SKIRT WALL	
	ORDERING NUMBER	WT. KG
1219	4-X-15-4-T-1	41.3
2438	8-X-15-4-T-1	83.0

Tangential skirt wall option requires a properly tracked belt within CEMA recommendations.

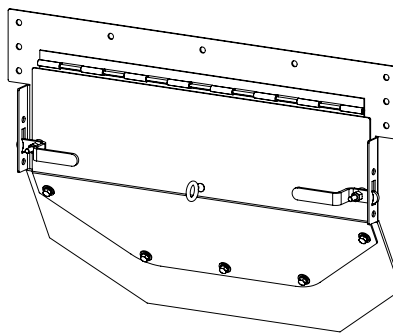

### Rear Seal\*

Can be used to enclose the rear of a skirting while providing access into the system.

BELT WIDTH mm	REAR SEAL	
	ORDERING NUMBER	WT. KG
600	RS-1-15-24-35	7.7
750	RS-1-15-30-35	9.5
900	RS-1-15-36-35	11.3
1050	RS-1-15-42-35	13.6
1200	RS-1-15-48-35	15.4
1350	RS-1-15-54-35	17.7
1500	RS-1-15-60-35	20.0
1650	RS-1-15-66-35	21.8
1800	RS-1-15-72-35	24.5
2100	RS-1-15-84-35	30.0
2400	RS-1-15-96-35	35.8

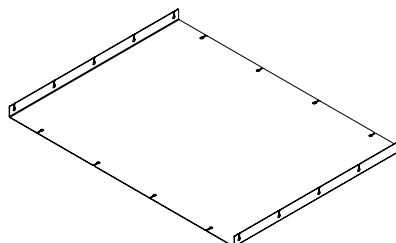

Do not use rear seal for a reversing conveyor belt.

### Skirt Cover\*

BELT WIDTH mm	1200 mm SKIRT COVER	
	ORDERING NUMBER	WT. KG
600	SC-7-24	4.5
750	SC-7-30	5.4
900	SC-7-36	6.4
1050	SC-7-42	7.3
1200	SC-7-48	6.2
1350	SC-7-54	9.1
1500	SC-7-60	10.0
1650	SC-7-66	10.7
1800	SC-7-72	12.2
2100	SC-7-84	14.1
2400	SC-7-96	15.9

Skirt covers are made out of aluminum.

Stock items (non-shaded) refer to (\*) for specific lead time, if not specified, standard lead time applies.  
Non-stock items (shaded) please contact Flexco for dispatch options and lead times.

### Dust Curtain\*

BELT WIDTH	DUST CURTAIN (Optional)	
	ORDERING NUMBER	WT. KG
600	DC-1-15-24-35	2.3
750	DC-1-15-30-35	2.7
900	DC-1-15-36-35	3.2
1050	DC-1-15-42-35	3.6
1200	DC-1-15-48-35	3.6
1350	DC-1-15-54-35	4.1
1500	DC-1-15-60-35	4.5
1650	DC-1-15-66-35	4.5
1800	DC-1-15-72-35	5.0
2100	DC-1-15-84-35	5.4
2400	DC-1-15-96-35	5.4

### Support Leg Assembly\*

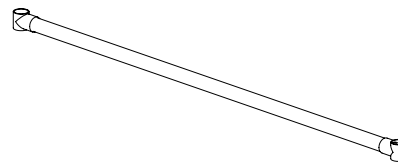

BELT WIDTH	SUPPORT LEG ASSEMBLY	
	ORDERING NUMBER	WT. KG
600	LA-24	14.1
750	LA-30	14.5
900	LA-36	15.4
1050	LA-42	16.3
1200	LA-48	17.2
1350	LA-54	17.7
1500	LA-60	19.1
1650	LA-66	19.5
1800	LA-72	20.0
2100	LA-84	21.8
2400	LA-96	23.6

Locate a support leg at a max. every 2400 mm (2.4 M). Skirt walls can accommodate support legs every 600 mm (0.6 M).

### Cross Brace Spanner\*

SPANNER LEG	CROSS BRACE SPANNER (Optional)	
	ORDERING NUMBER	WT. KG
609	SP-24	2.7
1219	SP-48	5.0
1829	SP-72	7.3
2438	SP-96	10.0

Cross brace spanner can be used to connect between cross braces to locate the vertical section of the support leg assembly anywhere along the cross brace spanner. Support legs need to be located at a maximum of every 2400 mm (2.4 M).

Stock items (non-shaded) refer to (\*) for specific lead time, if not specified, standard lead time applies.  
Non-stock items (shaded) please contact Flexco for dispatch options and lead times.
