

RMC1 Skirting System

Low-Cost Solution for Loading Point Spillage

RMC1 Skirt Clamps provide the cost-effective solution to material spillage problems in your conveyor loading zones. A good material containment system at the loading point reduces conveyor problems and saves cleanup costs. It stops material loss, eliminates safety hazards and reduces wear and premature failure of conveyor components.

Features and Benefits

- **No belt damage.** With correct installation, the skirting will not drag on the belt, causing premature wear or gouge marks in the belt cover. Such damage reduces belt cleaning efficiency and the life of the belt.
- **Safe service access.** All installation and maintenance work can be done safely from the sides of the conveyor. Climbing into the chute to work on nuts and bolts is not required.
- **Long service life.** Flex-Seal Skirting Systems are made of corrosion-protected components for tough duty. Replacement parts are available.

RMC1 Skirting System

Ordering Information

RMC1 Skirt Clamps*		
Description	Ordering Number	Item Code
Skirt Clamp	CRMC1	81980
LS Skirt Clamp	CRMC1-LS	81981

*Includes two clamp plates (Standard or LS- Limited Space) two clamp pins, and one 1.2M clamp bar.
Skirt board and skirting not included.
Skirting Thickness Ranges: 8mm to 19mm
