

MINELINE® MSP

Standard-Duty Precleaner

Economical and Effective

The Mineline® MSP Standard-Duty Precleaner is not your average solid-blade belt cleaner that mounts on the head pulley. It is a mine-tough design that combines simple, do-it-yourself installation, quick maintenance and effective cleaning results with an affordable price tag.

Features and Benefits

- **Quick-change blade.** No tools are needed. Just pull one pin, remove the old blade, slide in the new one and replace the pin.
- **Works with Flexco and other mechanical splices.** The spring tensioner quickly moves the blade away from the belt when a splice passes. The polyurethane blade easily glides over the splice without damage and with minimal cleaning disruption.
- **Easy to service.** All maintenance work is done from the easy-access side of the beltline. Blade retensioning and change-out are quick and easy.
- **Fits most conveyor structures.** Available for belt widths from 600 to 2100mm. The MSP poles are extra long (belt width plus 1350 mm) to accommodate varying structure widths.

MINELINE® MSP

Standard-Duty Precleaner

Specifications and Guidelines

Maximum Belt Speed

3.5 M/sec

Temperature Rating

-35° C to 82° C

Minimum Pulley Diameter

250 mm

Blade Height

185 mm

Usable Blade Wear Length

100 mm

Blade Material

Polyurethane 83 durometer (proprietary blend for abrasion resistance and long wear)

Available for Belt Widths

650 to 2000 mm
