

DRX™ 200, 750, and 1500 Impact Beds

It's the Structure, Not the Bars

Flexco's DRX™ Impact Beds are designed with one simple goal: protect the belt. How we meet that goal is revolutionary. We've engineered superior belt protection into the entire structure - not just the bars. Sturdy components, robust construction and convenient maintenance make our line more durable and efficient.

Easy maintenance with our Slide-Out Service

Impact Bars for absorbing material impact

Long-wearing UHMW slider bar ideal for sealing load zone

Multiple Options, like the trough angle, ensure the right impact bed for the right application

Defend against damage with the Impact Bar Supports, our first point of protection

Isolation Mounts provide a second level of impact relief

Features and Benefits

- **Protect the belt.** The Velocity Reduction Technology, including Impact Bar Supports and the Isolation Mounts, ensure a level of protection unlike any other. Less belt wear and damage, less rebounding and material degradation, and two levels of impact-absorbing force reduction.
- **Unmatched serviceability.** The DRX beds separate in the middle, allowing the two sides to slide apart and out. This provides direct access to all the bars and bolts for quick, easy and safe maintenance.
- **Application-specific options.** Whether it's low-impact applications like sand and gravel or high-impact applications like coal-fired power plants, coal prep plants and load-out facilities, the DRX 200, 750 or 1500 can meet your specific needs.

DRX™ 200, 750 and 1500 Series Impact Beds

Specifications and Guidelines

- **Maximum Belt Speed**
1000 FPM (5M/sec)
- **Max Temperature Rating**
-40° F to 180° F (-40° C to 82° C)
- **Impact Bar Material**
UHMW Polyethylene, rubber cushion and aluminum extrusion
- **Available for Belt Widths**
24" to 72" (600 to 1800mm)
- **Impact Energy**
Max Lump Weight (lb) x Drop Height (ft)
Up to 200 lb-ft DRX200
200 to 750 lb-ft DRX750
750 to 1500 lb-ft DRX1500
- **Tonnage Rating**
See tables below
