FLEX-LIFTER™ Conveyor Belt Lifter

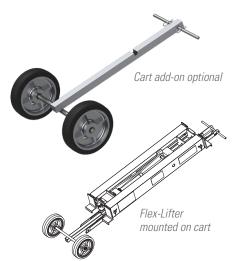

A Tough, Versatile Beltline Tool

Lifting a tensioned conveyor belt out of the way to do maintenance work is a difficult job. It can be time-consuming and dangerous. The Flex-Lifter™ makes the job safer and easier. It takes on the toughest jobs, like lifting a belt even when it is tensioned up to the stated ratings. This tool is versatile. Adjustable wings make it easy to lift troughed or flat topside belts.

Features and Benefits

- Easy to use. The Flex-Lifter™ is easily operated with a manual ratchet. And, if used with caution so as not to overdrive, the Flex-Lifter may be used with a drill motor or impact wrench.
- Works on a range of conveyors. The Medium model is for belt widths 900–1500 mm (36–60"), the Large model is for belt widths 1200–1800mm (48–72"), and the XL model is for belt widths 1800–2400 mm (72–96"). Lifts flat or cupped belts with ease.
- **Safe.** Features a wide, dual-rail base and high lift capacities. Also designed to work with standard CEMA and common underground conveyor structure and idler types.
- **Transportable.** The tool can be carried to the job site and easily placed into position on the conveyor structure. Also available with cart feature for rolling the unit.
- Won't damage the belt. Lifts the belt from underneath. Does not clamp onto the belt's edges or cover.

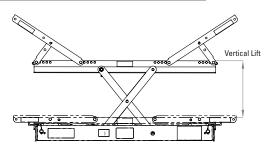

Specifications and Guidelines

Specifications						
Sizes	Dold Width Dongs	Conveyor Span		Weight	Classed Usingh	Vertical Lift
Sizes	Belt Width Range	MIN	MAX	vveignt	Closed Height	vertical Lift
