

MXP Extreme Duty Precleaner

The Toughest Applications Demand a Massive Cleaner

The MXP Extreme Duty Precleaner is the largest, most rugged precleaner Flexco offers. Designed with heavy-duty construction throughout, the MXP boasts an oversized 8" (200mm) diameter center pole and 19-3/8" (490mm) blade height. This ensures optimal cleaning on the largest pulleys and widest belts in the harshest applications the mining industry offers.

Features and Benefits

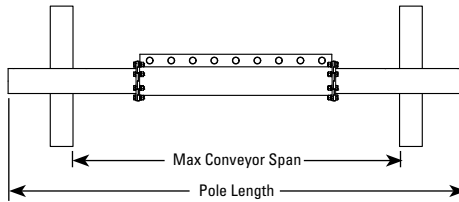

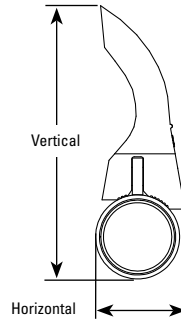

- **3-piece pole design.** 7" (175mm) diameter pole ends telescope into 8" (200mm) diameter center pole and bolt in place, creating an extremely sturdy pole that can be transported and installed in segments.
- **Works with mechanical splices.** The spring tensioner allows the blade to move away from the belt when a splice passes.
- **Made for extreme applications.** Made from heavy-duty steel with corrosion-resistant powder coating, the MXP is available for belt widths from 42" to 120" (1050 to 3000mm). Special sizes are available upon request.
- **Multiple lift points on pole segments make transportation and installation easier.**

Extreme Duty Precleaner

Specifications and Guidelines

- Maximum Belt Speed**
2000 FPM (10 M/sec)
- Temperature Rating**
-30°F to 275°F (-35°C to 135°C)
- Minimum Pulley Diameter**
48" (1200 mm)
- Blade Height**
19-3/8" (490 mm)
- Usable Blade Wear Length**
11-1/2" (290 mm)
- Blade Material**
Polyurethane 93 durometer (proprietary blend for abrasion resistance and long wear)
- Available for Belt Widths**
42" to 120" (1050 to 3000mm)
- CEMA Cleaner Rating**
Class 5
- Horizontal Clearance Required**
12" (300mm)
- Vertical Clearance Required**
27.5" (700mm)
- Pole Length**
Cleaner size + 79" (2000mm)
- Maximum Conveyor Span**
Cleaner size + 63" (1600mm)
