Standard Mine-Duty Precleaner

Economical and Effective

The MSP Standard-Duty Precleaner is not your average solid-blade belt cleaner that mounts on the head pulley. It is a mine-tough design that combines simple, do-it-yourself installation, quick maintenance and effective cleaning results with an affordable price tag.

Features and Benefits

- **Quick-change blade.** No tools are needed. Just pull one pin, remove the old blade, slide in the new one and replace the pin.
- Works with Flexco and other mechanical splices. The spring tensioner quickly moves the blade away from the belt when a splice passes. The polyurethane blade easily glides over the splice without damage and with minimal cleaning disruption.
- Easy to service. All maintenance work is done from the easy-access side of the beltline. Blade retensioning and change-out are quick and easy.
- Fits most conveyor structures. Available for belt widths from 600 to 2100mm (24 to 84"). The MSP poles are extra long (belt width plus 1350mm (54")) to accommodate varying structure widths.

Specifications and Guidelines

- **Maximum Belt Speed**
3.5 m/s (700 FPM)
- **Temperature Rating**
-35 to 82°C (-30 to 180°F)
- **Minimum Pulley Diameter**
400mm (16")
- **Blade Height**
185mm (7-1/4")
- **Usable Blade Wear Length**
100mm (4")
- **Blade Material**
Urethane 83 durometer
(proprietary blend for abrasion resistance and long wear)
- **Available for Belt Widths**
600 to 2100mm (24 to 84")
- **CEMA Cleaner Rating**
Class 3
- **Horizontal Clearance Required**
100mm (4")
- **Vertical Clearance Required**
254mm (10")
- **Pole Length**
Cleaner size + 1350mm (54")
- **Maximum Conveyor Span**
Cleaner size + 1100mm (44")
