

CBS

Continuous Blade Secondary Belt Cleaner

A Clean Belt is Just Beyond This Rugged Blade

The CBS Continuous Blade Secondary Belt Cleaner is designed with an unsegmented blade for excellent cleaning efficiency and low maintenance. The heavy-duty blade features a steel backbone holding a carbide leading edge which is encapsulated in our proprietary polyurethane to provide a long-wearing solution for your belt. When paired with a spring or air tensioner, the blade maintains constant pressure on the belt for excellent cleaning efficiency.

Features and Benefits

- **Cleaning efficiency of a metal blade.** The thin, hard edge of the metal blade delivers high cleaning efficiency and long wear life.
- **A complete cleaning system.** When the CBS is teamed with the MMP precleaner the system provides maximum cleaning power for tough applications.
- **Made for mining conveyors.** Made from heavy-duty, corrosion-resistant steel, the CBS is available in sizes for belt widths from 450 to 2400mm. Additional sizes are available upon request.
- **Safe to service.** All service can be performed from a safe position at the side of the conveyor.

CBS

Continuous Blade Secondary Belt Cleaner

Specifications and Guidelines

Maximum Belt Speed

4 m/s

Temperature Rating

-35° C to 82° C

Blade Material

6mm thick highly efficient one-piece carbide/polyurethane blade

Available for Belt Widths

450 to 2400mm

CEMA Cleaner Rating

Class 4

Pole Length Cleaner size + 1350mm

Maximum Conveyor Span Cleaner size + 1100mm

Horizontal Clearance Required
125mm

Vertical Clearance Required
254mm
