

H-TYPE® CLEANER BOX

Maintenance and Inspections Made Easy

Easy-to-install doors allow for inspections of enclosed structures, while providing a dust-tight seal. They also serve as an access point for cleaning material buildup off the conveyor, cleaners or other equipment.

Inner mesh safety door
with 3mm mesh at 50mm spacing

Features and Benefits:

- **Tension cleaners safely on the run.** Tensioner sits outside of the mesh guard, allowing for safe maintenance access.
- **Fully sealed.** Doors are fully sealed to eliminate dust and other emissions from the inspection door opening.
- **Stainless Steel.** Constructed from heavy-duty grade 316 stainless steel.
- **Universal.** These doors are available to suit most Flexco H-Type® Cleaners.
